Inclusion of students who have vision impairments in art

Art4KidswithVI: What to do with the student who is blind or has low vision in my art class

The webinar will investigate options, strategies and issues related to working with and teaching a student who is blind or has low vision in your art room or classroom art-making session.

Includes information on setting up or adjusting the room to better accommodate your student; issues of access to the visual arts; specialist techniques; budget options; investigating the use of visual description, tactile diagrams and touch access.

This is a repeat of the recorded webinar presented in 2021
