Fusion – Installation, Authorisation and De-authorisation

This software is part of the SVRC licence. It is on loan to students with vision impairments from the Statewide Vision Resource Centre for the time that they are enrolled in a Department of Education school and find it useful.

Opportunities for teachers, school staff, students and families to obtain training in the effective use of specialist technology are published on the SVRC website.

The person installing/authorising/de-authorising Fusion must be logged in with the Admin password.

If you have any questions please contact Quantum Software Support on 1300 791 777 or email vision.tech.library@education.vic.gov.au
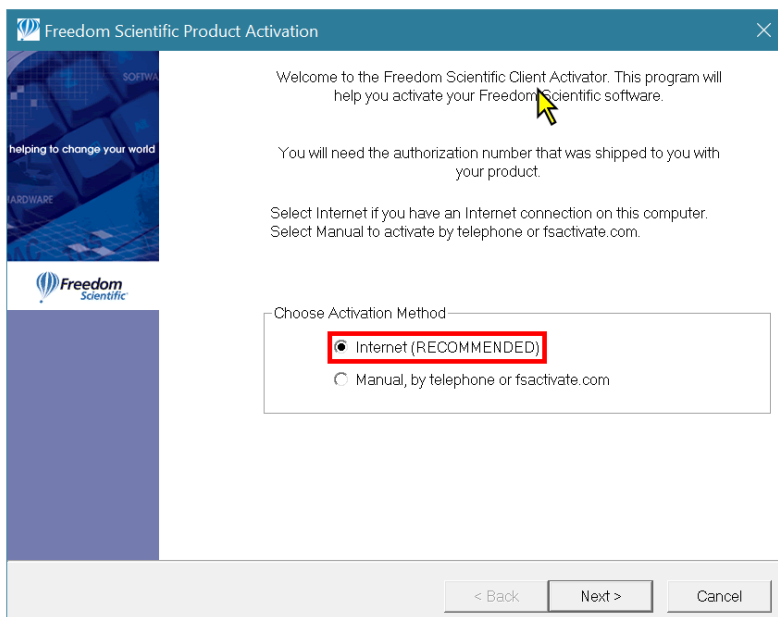

Installation

- Go to the Freedom Scientific website to download Fusion.
- Once downloaded, run the file to install Fusion.
- Please note the Fusion is combination of both JAWS and Zoomtext, so three shortcuts will appear on the homescreen.
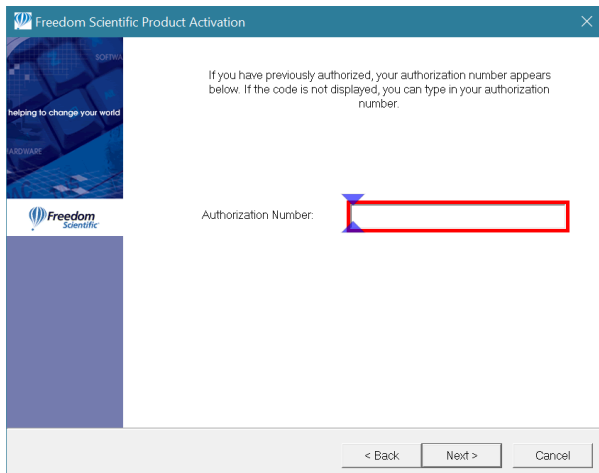

Authorisation

- Run Fusion. You will automatically be asked to "Update Authorisation" to activate the license.

- Ensure you have access to the internet as it is needed for the authorisation.

- The authorisation code is in the email sent to the student's Visiting Teacher. You can also email vision.tech.library@education.vic.gov.au to get the authorisation code.

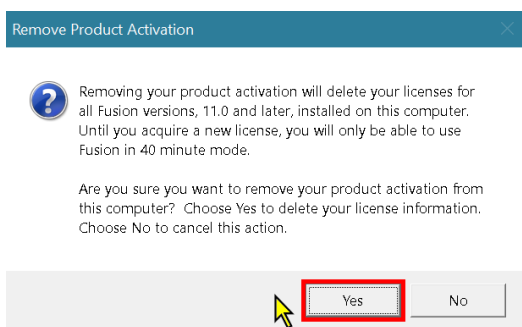

- During setup you may be prompted to register. If you're asked to register any details please use the following:
  - Name: **SVRC**
  - Company: **SVRC**

De-authorisation

- To return the Fusion license to the library, it first needs to be de-authorised.
- Click on the Fusion menu → Manage Licenses → Remove Current Authorisation.

- You will be asked to confirm this action. Click Yes.

- Please email vision.tech.library@education.vic.gov.au to confirm de-authorisation has occurred.
